TO MEMBERS OF FLORIDA'S CONGRESSIONAL DELEGATION:

**RE: Florida Chamber Supports Smarter Immigration Policy**

America is the land of opportunity, freedom and earned success. Diversity is a uniquely American value and it is a privilege to be an American citizen. We are a nation of laws as well as a nation of immigrants.

With the recent announcement ending the Deferred Action for Childhood Arrivals (DACA) program, the Florida Chamber of Commerce respectfully encourages Congress and the administration to work together to quickly find a legislative solution before the program expires. Without a legislative solution, 800,000 DACA recipients will lose their ability to work and legally study, and it will leave many Florida employers, workers and students without certainty.

Florida is a proud leader in private-sector job creation as well as forward looking policy decisions. Florida is inextricably connected to the global economy and we are actively growing and securing our future. Florida's nearly \$1 trillion GDP will see private-sector job growth of two million new jobs by 2030. Immigrants have made positive contributions to Florida's economic growth, fueling Florida's entrepreneurial spirit, creating jobs, diversifying our economy and have provided global competitive advantages that have helped make Florida a recognized international business center.

Decades of unsuccessful immigration policy has created an environment for positive change. The Florida Chamber believes Congress and the administration should work in a bipartisan effort to provide clear direction and leadership for the hard working, law abiding, established individuals in our communities under the DACA program. However, we do not support illegal immigration or a pathway to citizenship for convicted felons.

The Florida Chamber supports an earned pathway to citizenship for immigrants that pass criminal background checks as well as supports policies that reduce illegal immigration and improve on border security.

The facts are clear:

- There are approximately 800,000 DACA individuals.
- In Florida, voters overwhelmingly support – by 82 percent – allowing DACA recipients to remain in the United States.
- Regarding citizenship, 85 percent of Democrats, 75 percent of Independents (NPA's,) and 59 percent of Republicans support a pathway to citizenship.

The Florida Chamber stands ready to work with you and the administration toward a constructive solution that is in the best interest of Florida and the nation's economy.

My best,
