The Future Impact on Florida's Economy

“In another setback for pro-growth policy, Florida voters approved a measure incrementally increasing the state minimum wage to \$15 per hour over the next five years...Rich States, Poor States estimates Florida's economic outlook ranking will fall from seventh to 11th once the minimum wage reaches \$15 per hour.”

Out of State Money Pours into Florida Elections in 2020

“Data from Advertising Analytics shows that Bloomberg’s super PAC, Independence USA, spent just more than \$36 million in Florida between the months of September and November.”

“Forward Majority, for example, spent more than \$32 million in an effort to flip state legislative chambers in Florida, Texas, Arizona and North Carolina.”

“A lot of money is spent in states like Florida, but how are they spending it? Don’t just invest in television ads. Invest in field,” said Florida state Rep. Anna Eskamani, one of the Democratic Party’s younger progressive voices gaining traction...”

Local Chamber Host Testimonials

“Chambers that want to look at legislative and government affairs in a serious manner need to bring the FIPL training to their organization. This was truly a turn-key event for us that I know will pay dividends in our work in legislative affairs. The instructors and speakers were knowledgeable and skilled. Our Chamber has been looking for a program like, well actually this was a program that exceeded what we could have brought to the table. The comments, I have received from our members have been very positive. Looking forward to holding the program again.”

-Robert Goltz, Miramar Pembroke Pines Regional Chamber of Commerce

“I submitted the survey, but on a personal note, wanted to provide my gratitude: I’ve completed a few political trainings (including New Leaders Council, Congressional Black Caucus Institute, and Florida Next). FIPL was as advertised and was well worth the wait.”
