16 **SEC. 625. SENSE OF CONGRESS ON REPORT ON MURDER OF**  
17 **JAMAL KHASHOGGI.**

18 (a) FINDINGS.—Congress finds the following:

19 (1) There is a strong bipartisan conviction,  
20 shared widely throughout the legislative and execu-  
21 tive branches of the United States Government and  
22 elsewhere, that ensuring full accountability for the  
23 brutal murder on October 2, 2018, of Jamal  
24 Khashoggi, a former Washington Post columnist and  
25 resident of the United States, is in the public inter-

1 est and also the national interest of the United  
2 States.

3 (2) Section 5714 of the Damon Paul Nelson  
4 and Matthew Young Pollard Intelligence Authoriza-  
5 tion Act for Fiscal Years 2018, 2019, and 2020 (di-  
6 vision E of Public Law 116–92; 133 Stat. 2173) re-  
7 quired the Director of National Intelligence to sub-  
8 mit to Congress a written report in “unclassified  
9 form” that includes “identification of those who car-  
10 ried out, participated in, ordered, or were otherwise  
11 complicit in or responsible for the death of Jamal  
12 Khashoggi.”.

13 (3) Section 1277 of the National Defense Au-  
14 thorization Act for Fiscal Year 2020 (Public Law  
15 116–92; 133 Stat. 1701) likewise obligated the Di-  
16 rector to submit to the Committee on Foreign Af-  
17 fairs and the Permanent Select Committee on Intel-  
18 ligence of the House of Representatives and the  
19 Committee on Foreign Relations and the Select  
20 Committee on Intelligence of the Senate a written  
21 report on the assessment of the intelligence commu-  
22 nity regarding Mr. Khashoggi’s brutal murder.

23 (4) Such section 1277 specifically called, among  
24 other things, for a determination and presentation of  
25 evidence with respect to the advance knowledge and

1       role of any current or former official of the Govern-  
2       ment of Saudi Arabia or any current or former sen-  
3       ior Saudi political figure over the directing, ordering,  
4       or tampering of evidence in relation to Mr.  
5       Khashoggi's murder.

6           (5) Such section 1277 also required the Direc-  
7       tor to submit a list of foreign persons whom the Di-  
8       rector has high confidence were responsible for,  
9       complicit in, or otherwise knowingly and materially  
10      assisted the murder, or impeded its impartial inves-  
11      tigation, or who ordered or otherwise directed an act  
12      or acts contributing to or causing the murder.

13          (6) Contrary to the unambiguous and lawful  
14      command of Congress under such sections 5714 and  
15      1277, the Director did not produce any unclassified  
16      report as required by either such section, and in-  
17      stead, on February 20, 2020, the Director submitted  
18      to such committees a classified report, which the Di-  
19      rector referred to as an "annex".

20          (7) The evident belief of the Director that no  
21      unclassified information can be produced in accord-  
22      ance with the directives of Congress is dubious, in  
23      light of the extensive body of credible, unclassified  
24      reporting available regarding the murder of Mr.  
25      Khashoggi, and the roles and culpability of officials

1 at the highest levels of the Government of Saudi  
2 Arabia.

3 (b) SENSE OF CONGRESS.—It is the sense of Con-  
4 gress that the Director of National Intelligence should rea-  
5 sonably have been able to produce an unclassified report  
6 pursuant to section 5714 of the Damon Paul Nelson and  
7 Matthew Young Pollard Intelligence Authorization Act for  
8 Fiscal Years 2018, 2019, and 2020 and section 1277 of  
9 the National Defense Authorization Act for Fiscal Year  
10 2020 that did not alter or obscure, in any way, the intel-  
11 ligence community’s core determinations, its presentation  
12 of evidence, or identification of relevant persons, as re-  
13 quired, without putting sources and methods at risk.

25           of the Water Resources Development Act of 2016

1 (33 U.S.C. 2289a(a)), could improve the sustainable  
2 operations of the project, or reduce operation and  
3 maintenance costs for the project; or

4 “(3) that are no longer having project purposes  
5 adequately met by the Corps of Engineers, because  
6 of deferment of maintenance or other challenges,  
7 and the divestment of which to a non-Federal entity  
8 could better meet the local and regional needs for  
9 operation and maintenance.

10 “(c) CRITERIA.—In conducting the assessment under  
11 subsection (a) and developing the inventory under sub-  
12 section (b), the Secretary shall use the following criteria:

14 the current missions of the Corps of Engineers.

15 “(2) The economic and environmental impacts  
16 of the project on existing communities in the vicinity  
17 of the project.

18 “(3) The extent to which the divestment or  
19 modification of the project could reduce operation  
20 and maintenance costs of the Corps of Engineers.

21 “(4) The extent to which the divestment or  
22 modification of the project is in the public interest.

23 “(5) The extent to which investment of addi-  
24 tional Federal resources in the project proposed for  
25 divestment or modification, including investment

1       needed to bring the project to a good state of repair,  
2       is in the public interest.

3           “(6) The extent to which the authorized pur-  
4       pose of the project is no longer being met.

5       “(d) RECOMMENDATIONS OF NON-FEDERAL INTER-

10           “(1) IN GENERAL.—Upon completion of the in-  
11       ventory required by subsection (b), the Secretary  
12       shall submit to the Committee on Environment and  
13       Public Works of the Senate and the Committee on  
14       Transportation and Infrastructure of the House of  
15       Representatives, and make publicly available, a re-  
16       port containing the findings of the Secretary with  
17       respect to the assessment and inventory required

6 ordination with non-Federal interests, should maximize  
7 the development, evaluation, and recommendation of  
8 project alternatives for future water resources develop-  
9 ment projects that produce multiple project benefits, such  
10 as navigation, flood risk management, and ecosystem res-  
11 toration benefits, including through the use of natural or  
12 nature-based features and the beneficial use of dredged  
13 material.

18 tion.

19       (c) IMPLEMENTATION PRIOR TO REEVALUATION.—  
20 Nothing in this section prohibits the Secretary from imple-

21 98–373), is a region of strategic importance to the  
22 national security and maritime transportation inter-  
23 ests of the United States;

24 (2) there is a compelling national, regional,  
25 Alaska Native, and private sector need for perma-

1        nent maritime transportation infrastructure develop-  
2        ment and for a presence in the Arctic by the United  
3        States to assert national security interests and to  
4        support and facilitate search and rescue, shipping  
5        safety, economic development, oil spill prevention  
6        and response, subsistence and commercial fishing,  
7        the establishment of ports of refuge, Arctic research,

13        including the construction or refurbishment of 16  
14        deepwater ports in the region;

15           (4) is a serious concern that the closest United  
16        States strategic seaports to the Arctic are the Port  
17        of Anchorage and the Port of Tacoma, located ap-  
18        proximately 1,500 nautical miles and 2,400 nautical  
19        miles away from the Arctic, respectively, and ap-  
20        proximately 1,900 nautical miles and 2,800 nautical  
21        miles, respectively, from Utiagvik, Alaska; and

22           (5) it is in the national interest to enhance ex-  
23        isting, and develop, maritime transportation infra-  
24        structure in the Arctic, including an Arctic deep  
25        draft strategic seaport in Alaska, that would allow

1 the Coast Guard and the Navy each to perform their  
2 respective statutory duties and functions on a per-  
3 manent basis with minimal mission interruption.

4 **SEC. 155. SMALL WATER STORAGE PROJECTS.**

25 and no unexpired period of exclusivity;

2117

1           “(B) for which the approval of the applica-  
2           tion has been withdrawn for reasons other than  
3           safety or effectiveness; and

4           “(C) for which—

5                 “(i)(I) there is new scientific evidence  
6                 available pertaining to new or existing con-  
7                 ditions of use that is not reflected in the  
8                 approved labeling;

9                 “(II) the approved labeling does not  
10                reflect current legal and regulatory re-  
11                quirements for content or format; or

12                “(III) there is a relevant accepted use  
13                in clinical practice that is not reflected in  
14                the approved labeling; and

15                “(ii) updating the approved labeling  
16                would benefit the public health.

17           “(2) The term ‘period of exclusivity’, with re-  
18           spect to a drug approved under section 505(e),  
19           means any period of exclusivity under clause (ii),  
20           (iii), or (iv) of section 505(e)(3)(E), clause (ii), (iii),  
21           or (iv) of section 505(j)(5)(F), or section 505A,  
22           505E, or 527.

23           “(3) The term ‘generic version’ means a drug  
24           approved under section 505(j) whose reference listed  
25           drug is a covered drug.

1           “(4) The term ‘relevant accepted use’ means a  
2           use for a drug in clinical practice that is supported  
3           by scientific evidence that appears to the Secretary  
4           to meet the standards for approval under section  
5           505.

6           “(5) The term ‘selected drug’ means a covered  
7           drug for which the Secretary has determined  
8           through the process under subsection (c) that the la-  
9           beling should be changed.

10          “(b) IDENTIFICATION OF COVERED DRUGS.—The  
11         Secretary may identify covered drugs for which labeling  
12         updates would provide a public health benefit. To assist  
13         in identifying covered drugs, the Secretary may do one or  
14         both of the following:

15                 “(1) Enter into cooperative agreements or con-  
16                 tracts with public or private entities to review the  
17                 available scientific evidence concerning such drugs.

18                 “(2) Seek public input concerning such drugs,  
19                 including input on whether there is a relevant ac-  
20                 cepted use in clinical practice that is not reflected in  
21                 the approved labeling of such drugs or whether new  
22                 scientific evidence is available regarding the condi-  
23                 tions of use for such drug, by—

24                         “(A) holding one or more public meetings;

1           “(B) opening a public docket for the sub-  
2           mission of public comments; or

3           “(C) other means, as the Secretary deter-  
4           mines appropriate.

5           “(c) SELECTION OF DRUGS FOR UPDATING.—If the  
6           Secretary determines, with respect to a covered drug, that  
7           the available scientific evidence meets the standards under  
8           section 505 for adding or modifying information to the  
9           labeling or providing supplemental information to the la-  
10          beling regarding the use of the covered drug, the Secretary  
11          may initiate the process under subsection (d).

12          “(d) INITIATION OF THE PROCESS OF UPDATING.—  
13          If the Secretary determines that labeling changes are ap-  
14          propriate for a selected drug pursuant to subsection (c),  
15          the Secretary shall provide notice to the holders of ap-  
16          proved applications for a generic version of such drug  
17          that—

18                 “(1) summarizes the findings supporting the  
19                 determination of the Secretary that the available sci-  
20                 entific evidence meets the standards under section  
21                 505 for adding or modifying information or pro-  
22                 viding supplemental information to the labeling of  
23                 the covered drug pursuant to subsection (c);

24                 “(2) provides a clear statement regarding the  
25                 additional, modified, or supplemental information for

1 such labeling, according to the determination by the  
2 Secretary (including, as applicable, modifications to  
3 add the relevant accepted use to the labeling of the  
4 drug as an additional indication for the drug); and

5 “(3) states whether the statement under para-  
6 graph (2) applies to the selected drug as a class of  
7 covered drugs or only to a specific drug product.

8 “(e) RESPONSE TO NOTIFICATION.—Within 30 days  
9 of receipt of notification provided by the Secretary pursu-  
10 ant to subsection (d), the holder of an approved applica-  
11 tion for a generic version of the selected drug shall—

12 “(1) agree to change the approved labeling to  
13 reflect the additional, modified, or supplemental in-  
14 formation the Secretary has determined to be appro-  
15 priate; or

16 “(2) notify the Secretary that the holder of the  
17 approved application does not believe that the re-  
18 quested labeling changes are warranted and submit  
19 a statement detailing the reasons why such changes  
20 are not warranted.

21 “(f) REVIEW OF APPLICATION HOLDER’S RE-  
22 SPONSE.—

23 “(1) IN GENERAL.—Upon receipt of the appli-  
24 cation holder’s response, the Secretary shall prompt-  
25 ly review each statement received under subsection

1 (e)(2) and determine which labeling changes pursu-  
2 ant to the Secretary's notice under subsection (d)  
3 are appropriate, if any. If the Secretary disagrees  
4 with the reasons why such labeling changes are not  
5 warranted, the Secretary shall provide opportunity  
6 for discussions with the application holders to reach  
7 agreement on whether the labeling for the covered  
8 drug should be updated to reflect available scientific  
9 evidence, and if so, the content of such labeling  
10 changes.

11 “(2) CHANGES TO LABELING.—After consid-  
12 ering all responses from the holder of an approved  
13 application under paragraph (1) or (2) of subsection  
14 (e), and any discussion under paragraph (1), the  
15 Secretary may order such holder to make the label-  
16 ing changes the Secretary determines are appro-  
17 priate. Such holder of an approved application  
18 shall—

19 “(A) update its paper labeling for the drug  
20 at the next printing of that labeling;

21 “(B) update any electronic labeling for the  
22 drug within 30 days of such order; and

23 “(C) submit the revised labeling through  
24 the form, ‘Supplement—Changes Being Ef-  
25 fected’.

1           “(g) VIOLATION.—If the holder of an approved appli-  
2 cation for the generic version of the selected drug does  
3 not comply with the requirements of subsection (f)(2),  
4 such generic version of the selected drug shall be deemed  
5 to be misbranded under section 502.

6           “(h) LIMITATIONS; GENERIC DRUGS.—

7           “(1) IN GENERAL.—With respect to any label-  
8 ing change required under this section, the generic  
9 version shall be deemed to have the same conditions  
10 of use and the same labeling as its reference listed  
11 drug for purposes of clauses (i) and (v) of section  
12 505(j)(2)(A). Any labeling change so required shall  
13 not have any legal effect for the applicant that is  
14 different than the legal effect that would have re-  
15 sulted if a supplemental application had been sub-  
16 mitted and approved to conform the labeling of the  
17 generic version to a change in the labeling of the ref-  
18 erence drug.

19           “(2) SUPPLEMENTAL APPLICATIONS.—Changes  
20 to labeling made in accordance with this section  
21 shall not be eligible for an exclusivity period under  
22 this Act.

23           “(3) SELECTION OF DRUGS.—The Secretary  
24 shall not identify a drug as a covered drug or select  
25 a drug label for updating under subsection (b) or (c)

1 solely based on the availability of new safety infor-  
2 mation. Upon identification of a drug as a covered  
3 drug under subsection (b), the Secretary may then  
4 consider the availability of new safety information  
5 (as defined in section 505–1(b)) in determining  
6 whether the drug is a selected drug and in deter-  
7 mining what labeling changes are appropriate.

8 “(i) RULES OF CONSTRUCTION.—

9 “(1) APPROVAL STANDARDS.—This section  
10 shall not be construed as altering the applicability of  
11 the standards for approval of an application under  
12 section 505. No order shall be issued under this sub-  
13 section unless the scientific evidence supporting the  
14 changed labeling meets the standards for approval  
15 applicable to any change to labeling under section  
16 505.

17 “(2) REMOVAL OF INFORMATION.—Nothing in  
18 this section shall be construed to give the Secretary  
19 additional authority to remove approved indications  
20 for drugs, other than the authority described in this  
21 section.

22 “(3) SECRETARY AUTHORITY.—Nothing in this  
23 section shall be construed to limit the authority of  
24 the Secretary to require labeling changes under sec-  
25 tion 505(o).

1           “(4) MAINTENANCE OF LABELING.—Nothing in  
2           this section shall be construed to affect the responsi-  
3           bility of the holder of an approved application under  
4           section 505(j) to maintain its labeling in accordance  
5           with existing requirements, including subpart B of  
6           part 201 and sections 314.70 and 314.97 of title 21,  
7           Code of Federal Regulations (or any successor regu-  
8           lations).

9           “(j) REPORTS.—Not later than 4 years after the date  
10          of the enactment of this section, and every 4 years there-  
11          after, the Secretary shall prepare and submit to the Com-  
12          mittee on Energy and Commerce of the House of Rep-  
13          resentatives and the Committee on Health, Education,  
14          Labor, and Pensions of the Senate, a report that—

15               “(1) describes the actions of the Secretary  
16          under this section, including—

17                       “(A) the number of covered drugs and de-  
18                       scription of the types of drugs the Secretary  
19                       has selected for labeling changes and the ra-  
20                       tionale for such recommended changes; and

21                       “(B) the number of times the Secretary  
22                       entered into discussions concerning a disagree-  
23                       ment with an application holder or holders and  
24                       a summary of the decision regarding a labeling  
25                       change, if any; and

1           “(2) includes any recommendations of the Sec-  
2           retary for modifying the program under this sec-  
3           tion.”.

7 ing at the end the following:

8                   “(9) PUBLIC LISTING.—

9                           “(A) IN GENERAL.—

10                                   “(i) INITIAL PUBLICATION.—Not later

18 enactment, a biologics license under  
19 subsection (a) or this subsection is in  
20 effect, or that, as of such date of en-  
21 actment, is deemed to be licensed  
22 under this section pursuant to section

2126

1                   “(II) the date of licensure of the  
2                   marketing application and the applica-

4                   “(III) with respect to each bio-  
5                   logical product described in subclause  
6                   (I), the licensure status, and, as avail-

16                  Price Competition and Innovation Act of  
17                  2009.

18                  “(iii) PATENT INFORMATION.—Not  
19                  later than 30 days after a list of patents  
20                  under subsection (l)(3)(A), or a supple-  
21                  ment to such list under subsection (l)(7),  
22                  has been provided by the reference product  
23                  sponsor to the subsection (k) applicant re-

3 to) and their corresponding expiry dates to  
4 the Secretary, and the Secretary shall, in

15 list and their corresponding expiry dates.

16 “(iv) LISTING OF EXCLUSIVITIES.—  
17 For each biological product included on the  
18 list published under this subparagraph, the  
19 Secretary shall specify each exclusivity pe-  
20 riod under paragraph (6) or paragraph (7)  
21 for which the Secretary has determined  
22 such biological product to be eligible and  
23 that has not concluded.

24 “(B) REVOCATION OR SUSPENSION OF LI-  
25 CENSE.—If the license of a biological product is

1           determined by the Secretary to have been re-

3           tency reasons, it may not be published in the  
4           list under subparagraph (A). If such revocation  
5           or suspension occurred after inclusion of such

7           subparagraph (A), the reference product spon-
