

HEALTHCARE PARTNERSHIP

HEALTHCARE PARTNERSHIP

A PROGRAM OF THE FLORIDA CHAMBER OF COMMERCE

The Florida Chamber of Commerce's Healthcare Partnership was created to unify Florida's employers to help advance legislation that lowers costs, increases access to care, promotes better healthcare outcomes and fights government policies that undermine Florida's competitiveness.

The Florida Chamber Healthcare Partnership membership is made up of a diverse group of business leaders from Fortune 500 Companies to small, privately owned firms. No matter what industry segment your company represents, every business must address healthcare related issues. From the rising costs of insurance premiums to provider access, the business community must unite to help create an environment where employers, employees and providers can thrive.

Speaking in one voice to discuss and advance Florida's healthcare priorities allows the Florida Chamber Healthcare Partnership to leverage the best thought leaders throughout Florida to support legislation that will drive innovation, while continuing to address current healthcare shortfalls. With the shared vision of Florida's business community, we can help ensure Florida becomes a top 5 state for overall well-being-- one of the Florida 2030 Blueprint goals.

As the tip of the spear, Healthcare Partnership members receive the benefit of a collective voice in advocating for, or opposing, healthcare related legislation.

Florida Chamber Healthcare Partnership Benefits Include:

- The ability to promote, define and advance public policy through the Florida Chamber of Commerce initiatives;
- Opportunity to hear directly from and regularly engage with legislative and executive branch leaders;
- Engage, connect and network with other companies and leaders to discuss best practices, upcoming legislation, innovation and the future of the healthcare landscape; and
- Have access to the Florida Chamber Foundation Solution Summits and research.

The Florida Chamber's efforts to make Florida a global healthcare leader continue to be challenged by groups who stand in the way of competitiveness, free enterprise and economic opportunity for all Floridians. The Healthcare Partnership brings together companies that will make the right things happen in Florida and help Florida serve as the national example of how to make healthcare work.
