

MANUFACTURING IN FLORIDA

After Years of Growth, Florida's Manufacturing Industry is Well Positioned In the Face of Uncertainty

Trends in Florida's manufacturing industry over the last few years are promising indicators that there is solid footing heading into a period of uncertainty. Manufacturing fuels Florida's economy, employing over 429,800 Floridians and drives innovation across industries like aerospace, healthcare, agriculture, and consumer goods.

Currently, Florida is ranked #10 in the country for manufacturing employment, recently surpassing Georgia. Even further, Florida is ranked **#1 for manufacturing job growth over the last 10 years, adding 90,000 jobs, more than any other state.**
